Welcome

Cattlemen, Cattlewomen and Friends

We would like to invite you to our 29th annual Bull Sale March 26, 2021 at M Diamond Angus Ranch @1:00pm. It's hard to believe that the Boner and Lisco families are going to host our 29th Bull Sale. Friendship and a common view point about raising good functional cattle brought our two families together, but it is the support and belief in our programs from our customers that have kept us going for 29 years. We would like to thank those who have supported our programs and welcome those of you attending for the first time. **The friendships we have made over the last 29 years are one of the true treasures of this business.** Brad and I have had the opportunity to watch each of our families grow and are proud to have Brad's son Ryan, and nephew, Trent, along with my two sons, Jordan and Taylor, join our programs, what a blessing they have been.

The sale will be held at M Diamond Angus Ranch. Directions to the ranch are included on the inside back cover of this catalog. Plan to be our guests for lunch starting at 11:00 a.m., and please join us for the hospitality afterward.

Dick and Brad standing in front of their "vintage" sign that hung at the Glenrock sale barn where the sale was held until 2013.

It now hangs in the barn / sale facility at M Diamond Angus ranch.

Our Registered Angus cattle are truly **BORN** and **BRED** to **THRIVE** under the tough range conditions known to Wyoming. That being so true with the limited amount of moisture we had last summer and the sub-zero temperatures we are experiencing as we prepare for calving and the sale. The calves are raised on mama's milk, grass and lots of Wyoming scenery. **Mother Nature is allowed to take its course so we can identify those with the "DRIVE to THRIVE."** With fluctuating markets and ever changing range and weather conditions, the Angus female is and will always be at the forefront of our breeding programs. We demand our cows utilize the available forage and convert it efficiently in order to breed back on time and bring in a big, healthy calf at weaning. We also place a great deal of emphasis on the traits not measured by EPDs, fertility, fleshing ability, mothering ability, udder quality, disposition and structural soundness.

The yearling bulls are again being fed in Hemingford, Neb., at the Bolek Feedlot, Gary and Brad do an outstanding job of allowing the bulls to express their genetic potential, yet maintain their functionality and soundness as range bulls. If you are in the area please feel free to stop in and take a look. **New to this year's sale will be an excellent offering of long-aged (summer-calved) bulls from M Diamond Angus and an outstanding set of 2-year-olds from Lisco Angus.** These bulls are at the ranch and can be viewed anytime. Videos of the bulls should be viewable the first week in March by going to dvauction.com or mdiamondangus.com. The bulls have also been PAP tested by Dr. Lanny Weddle and he would be glad to answer any of your questions at 970-723-8314.

All the bulls in the sale have passed a breeding soundness exam, tested negative for PI BVD and have been PAP scored. The bulls will be at M-Diamond Angus Ranch by noon on March 23, 2021, for inspection prior to the sale. If you have any questions, please feel free to call or e-mail.

The future belongs to the few of us still willing to get our hands dirty!

We look forward to seeing old friends and making new ones on March 26, 2021, at M Diamond Angus Ranch for our 29th Annual Bull Sale.

Best Wishes!

SALE CATALOG & SUPPLEMENTAL INFORMATION

To view the online catalog, supplement sheets for weights and scrotals, video of selected lots and sale order, go to www.mdiamondangus.com

Lisco & M Diamond Angus. Cattle Born & Bred with the Drive to Thrive.

Welcome and we hope to see you Friday, March 26 at the M Diamond Ranch, Glenrock, Wyo., to view and bid on a great set of calving-ease and growth bulls offered by Lisco and M Diamond Angus. This is a set of bulls that are balanced, deep, thick and multi-purpose. They have big ribeye areas and lots of muscle and do-ability. No extremes, but cattle that work in **all-important traits under tough range conditions.**

This time-tested program produces calving-ease, muscle and easy-fleshing cattle. Cattle that are docile, well balanced and that fit the needs of their commercial customers. Proven top female sires U-2 Coalition, S Summit 4604, S Cornerstone, Marcys Scale Breaker N Plus and KG Justified are featured. They produce females that truly do have the DRIVE TO THRIVE under the tough range conditions Wyoming can present. They are easy-fleshing, highly fertile, moderate-framed cattle with excellent udders and top mothering ability.

Many calving-ease bulls are offered, but with the knowledge that their cattle must have the performance to bring in a heavy calf at weaning and have performance in the feedlot and on the rail.

Please give me a call if I can help with your selections in any way. I will be there Wednesday, March 24, through the sale. If weather or distance should be a problem, You can leave a bid, bid on the phone or through DV Auction on the internet.

George Marcy, Marcy Livestock Services, Cell: (308) 430-2005

Information

SALE TIME: 1:00 p.m.

INSPECTION: Cattle are available anytime at Bolek Feedlot in Nebraska and will be at the ranch March 23 through the sale date.

RETAINED INTEREST: All bulls selling will have 1/3 semen interest and 1/3 revenue-sharing interest retained by Lisco or M Diamond Angus. Full possession sells on all bulls.

WINTERING: Yearlings can be kept until April 5 and then will be delivered. Two-year-olds and summer bulls must be taken immediately. Note the discount for bulls taken on sale day.

DELIVERY: Free on all bulls within a 500-mile radius. For further distances please call; arrangements can be made for assistance if Lisco/M Diamond is contacted ahead of time. Deduct \$50 per bull from purchase price if you haul yourself. Females are the responsibility of the buyer, but we will assist with arrangements for females.

SEMEN EVALUATION: Bulls have passed fertility testing and are guaranteed breeders.

PAP SCORES: All bulls have been PAP tested. Yearling bulls will have a supplement sheet of the scores sale day and we will have them up on our website as soon as possible.

ULTRASOUND: All bulls have been ultrasounded. Results are included in the catalog.

DESIGNATED CALVING EASE: We have marked the bulls we think will work on heifers. Please use your own judgment.

- ◆◆ Should work on all heifers
- ◆ Should work on larger heifers

SALE DAY WEIGHT: All bull weights will be listed on a supplement sheet that will include their actual weight and scrotal measurement the week of the sale. Video of all lots, supplement sheets and sale order can be viewed at www.mdiamondangus.com or www.dvauction.com. Just click on "Sale Catalogs" and then "Lisco/M Diamond" to view.

HERD HEALTH: All cattle sell with proper health papers for interstate shipment. A rigid herd health program has been followed. All bulls sell guaranteed or tested free of all known genetic defects by DNA test or pedigree. All bulls tested negative for PI BVD.

TERMS AND CONDITIONS: These cattle sell under the terms and conditions of the American Angus Association.

Announcements from the block will take precedence over information in this catalog.

First-Year Breeding Season Guarantee

Lisco/M Diamond will cover 50 percent of the value of bulls selling for \$3,000 or more if they are injured during their first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls.

Fifty percent of the value of the injured bull, minus one-half salvage value, will be given as credit in a following sale or toward a replacement bull if one is available. Salvage value, if any, will be split equally between Lisco/M Diamond and the buyer. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by Sept. 1, 2021.

Example: A \$5,000 bull is injured and will not heal. A credit of \$2,500 minus one-half of any salvage value will be given to the buyer.

Example 2: A \$3,000 bull is injured and will not heal. A credit of \$1,500 minus one-half of any salvage value will be given to the buyer.

Example 3: A \$2,900 bull is injured and will not heal. No credit is given. Buyer retains all salvage value.

This guarantee does not cover mismanagement or neglect.

Genomic-Enhanced EPDs

As some of you may have heard, the American Angus Association has changed from a “Multi-Step” process to a “One-Step” process for Genomic-Enhanced EPDs. Having witnessed firsthand the tremendous inaccuracies with the Multi-Step process, it seems prudent, at least right out of the gate, to be suspect of the accuracy of the new One-Step process. Many in academia are claiming it’s an accurate selection tool, but they made the same claims of the Multi-Step process.

Providing our CUSTOMERS with ACCURATE data in order to help you in your bull-buying decisions is of the UTMOST importance to us. We take the responsibility of providing you with quality seedstock very seriously. Therefore, we believe it’s in our customers’ best interest to take a wait-and-see stance on the new One-Step process. For these reasons we have not printed any Genomic-Enhanced EPDs in our catalog.

In an effort to study, monitor and learn about the new One-Step process, we have DNA tested specific lot numbers and that information will be available sale day. You can view their One-Step Enhanced EPDs two ways. We will have them available sale day or a few days prior to the sale. They should also be available if you type in the bull’s name or registration number at www.angus.org/Animal/EpdPedSearch.aspx.

Please feel free to call us prior to the sale if you want to discuss this topic further.

Coalition is one of the great female producers of our time and will be a major part of our breeding program for years to come. He has a unique ability to sire progeny with like phenotype that is unparalleled among most sires. Coalition sons look like bulls. They are stout, thick topped and square made with a ton of muscle expression, while still being very attractive fronted with a proud appearance and a world of Angus-breed character

His daughters are where his legacy will be formed. They have superb udder attachment, teat size and maternal temperament. The phenotypic consistency is as strong in the females as it is in the bulls. Use Coalition to propel phenotype, muscle expression and maternal superiority in his progeny. 16 sons sell.

U-2 Erelite 109Z

Erelite 109Z is the dam of Coalition. She is a stunning individual. Powerful in her build, flawless in her udder with an amount of muscle and power that few females possess. We are fortunate to have acquired her, along with Spickler Ranch South, as the featured and high-selling female of the historic U2 dispersion for \$140,000.

She is in our donor program, and we anxiously await the furthering of her influence on our genetic program.

S Lass 627	Connealy Danny Boy
	S Lass 472

Summit 4604 is siring tremendous muscle, rib shape, fleshing ability and performance. It is rare to find these traits today in a sure-fire heifer bull. He is stamping his calves with the same type and kind-tremendous mass and muscle in a calving-ease package. His first daughters in production did an amazing job! They recorded 29 weaning weights with an average weaning ratio of 103.

Leased by Beef 360.

Cornerstone was the high-selling bull – \$65,000 – at the 2017 Spickler Ranch South sale. Cornerstone presents a phenotypic, performance and maternal package that is second to none.

His herd sire-producing dam, S Blossom 0278, is a tremendous cow that will continue to leave her mark on the Angus breed for years to come. His three-generation pedigree has 12 Pathfinders®. In addition to his dam, the well-known maternal prowess of S Pride Anna 709 (dam of S Summit 956 and S Whitlock 179) and S Gloria 464 (dam of S Chisum 6175) grace Cornerstone's pedigree. He is very enjoyable to be around and has an amazingly calm and docile disposition. He really likes his back scratches!

Cornerstone's sons were very well received and the high-selling sire group last year. They are low to moderate at birth and then perform very well at weaning and yearling. He shows 211@99 BWR, 206 progeny @ 102 WR and 59 sons @102 REA. They are deep-ribbed, easy-fleshing cattle that carry abundant muscle. We are calving out his first daughters this spring. His first daughters in production did an amazing job – 29 daughters recorded an average weaning ratio of 103!

N Plus is an exceptional son of Marcys Scale Crusher that's as good a bull as you can make for phenotype. He excels in deep-ribbed, easy-fleshing progeny that are long, smooth and full of muscle. He has one of the thickest rear quarters you will find on an Angus bull. His calves are thick and soggy, with an easy-doing look, and his progeny will hold up well in tough country. His Pathfinder® dam is now an ET donor here at M Diamond Angus.

Cowboy Up is a performance powerhouse that sires progeny excelling at the top of the breed for performance both at weaning and in the feedlot. This high-weaning, powerful growth bull sires excellent feet and legs, fertility, docility and big scrotal cattle. His dam records 3@119 WR and he comes from a long line of high maternal females. He is also represented by OCC Montana Cowboy, one of the top bulls at Midland Bull Test in 2018.

This powerful ET donor will have great influence in our program.

Lots 8, 9 & 10

These bulls have turned out to be exactly what we pictured when we decided to do this mating – bulls whose phenotype catches your eye every time you go through the pen. These bulls have a ton of muscle shape and expression. They have a thick top and a long hip. These bulls combine two of the best females to ever walk the pastures at M Diamond Angus. 227 and 109Z are both cows who have raised herd sires; those include Marcys N Plus, U2 Coalition and U2 Temptation. The heifer mates to these bulls are very special and these bulls have real herd-changing potential.

This is a bull that will leave behind females that you will wish you had more of. The heifer mate to this bull is at the top in the replacement pen. This bull combines the great Cap 316 with the outstanding donor cow 15-3 who we purchased from Marcy Cattle Company. 15-3 has proven herself producing top-end bulls, and very feminine and functional females. She is a powerful female who has top performance and end-product value.

Lots 15 & 16

These two flush brothers are bound to catch your eye on sale day. Their Net Worth-sired dam, Pine Coulee Everelda W77, is a donor cow at Pine Coulee Angus. She is a very powerful cow with excellent feet and udder as well as a great disposition. These calves are very smooth made and complete. Expect these bulls to sire females who are very attractive and feminine, and stay in your herd for a long time.

Pine Coulee Everelda W77 – Dam of Lots 15 & 16

 This bull does a lot of things right. He is a two-star heifer bull with a Birth Weight EPD that is Top 4% in the breed. However, this bull does not sacrifice performance and touts a 109 weaning ratio. His dam is a product of a very successful flush that combined Final Answer and the great 528 cow.

KG Justified 3023 – Grandsire of Lot 30

 A sleep-at-night heifer bull. This bull was sick as a yearling and has played catchup very well.

M Diamond Summer Bulls

A Word About the Summer Bulls

Over the last several years, we have had customers ask us about our willingness to provide them with some older, PAP-tested bulls. In an effort to meet this request, in 2018 we began to establish a completely separate June-calving cow herd. These herds – spring calving and summer calving – will be treated as two distinctly different herds and will be run separately. No cows will ever be transferred to the other herd, and the same stringent culling practices we employ for the spring-calving herd will be used in the summer calving herd.

In order to accomplish this, the first several summer calf crops will be made up of mostly embryo transfer calves. Over time, as we retain replacement heifers from these calf crops, the number of females will grow until we have established our summer herd, and there will be fewer ET calves as a percentage of the overall summer offering.

We hope you find this new offering to your liking and look forward to providing high-quality, older bulls. We will always strive to meet the needs of our great customers for years to come!

Please let us know if we can answer any questions you may have about the summer herd.
